

Community Access-Ability Program Guidelines

Objective

Under the Accessibility Act, Nova Scotia has committed to an accessible Nova Scotia by 2030. Meeting this goal means preventing and removing barriers to accessibility for persons with disabilities.

Under this program, the Provincial Government invests up to two thirds of the costs of accessibility improvements, with the applicant responsible for one third of the project's funding. Priority will be given to applications which demonstrate that the improvements proposed is part of an overall plan and commitment to the inclusiveness of persons with disabilities.

Eligibility

Funding is available for improvements that will provide universal public accessibility or to upgrade existing accessible features. Organizations are eligible to submit one application per year.

Eligible facilities must be open for use by all community members and not just to those who belong to the applying organization. For example, a curling club or church hall must be open to the public and not just for members.
