TOP 5 SUB-DOMAINS - CULTURE IMPORTS

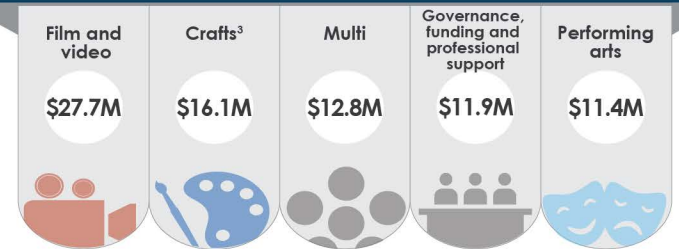

Culture Exports

In 2018, exports of culture products* totaled \$124.1 million.²

The Film and video, Crafts, and Multi sub-domains contributed the most to culture exports.

TOP 5 SUB-DOMAINS - CULTURE EXPORTS

Nova Scotia

¹ Culture products include culture goods and services.

² Digital culture products are partially, but not fully, reflected in the trade figures due to limits of the data; as such, certain sub-domains (e.g. Books, Periodicals, and Newspapers) are likely undervalued.

³ The Crafts sub-domain includes various manufactured products that originate from creative artistic activities. It includes items such as jewelry, pottery, and knives. However, due to measurement limitations estimates of trade for the Craft sub-domain may be overstated.
